#### **3-DAY DIET DIARY INSTRUCTIONS**

**DIET DIARY** 

It is important to keep an accurate record of your child's usual food and beverage intake as a part of the treatment plan. Please complete this Diet Diary for 3 consecutive days including one weekend day.

- Do not change your child's eating behavior at this time, as the purpose of this food record is to analyze present eating habits.
- Record information as soon as possible after the food has been consumed.
- Describe the food or beverage as accurately as possible e.g., milk what kind? (whole, 2%, nonfat); toast (whole wheat, white, buttered); chicken (fried, baked, breaded), coffee (decaffeinated, with sugar, ½ & ½).
- Record the amount of each food or beverage consumed using standard measurements such as 8 ounces, 1/2 cup, 1 teaspoon, etc.
- Include any added items. For example: tea with 1 teaspoon honey, potato with 2 teaspoons butter, etc.
- Record all beverages, including water, coffee, tea, sports drinks, sodas/diet sodas, etc.
- Include any additional comments about your child's eating habits on this form (ex. craving sweet, skipped meal
  and why, when the meal was at a restaurant, etc).
- · Please note all bowel movements and their consistency (regular, loose, firm, etc.).

## MSQ - MEDICAL SYMPTOM/TOXICITY QUESTIONNAIRE

| The Toxicity and Symptom Screening Questionnaire identifies symptoms that help to identify the underlying causes of illness, and helps track your child's progress over time. Rate each of the following symptoms based upon your child's health profile for the past 30 days. If you are taking after the first time, record your child's symptoms for the last 48 hours ONLY.   |   |   |  |  |
|---|---|---|--|--|
| POINT SCALE  0 = Never or almost never have the symp  1 = Occasionally have it, effect is not sev   | 1   | ct is not severe  |  |  |
